

3D-SOP

YOUR SOP + INTERACTIVE VIRTUAL REALITY + TABLETS

- ◆ **Simple** Intuitive and responsive touch interface.
- ◆ **Realistic** 3D simulation of your control groups & equipment.
- ◆ **Interactive** Controls work as they would in your specific facility.
- ◆ **Updated** Simulation is kept in sync with your current SOP.
- ◆ **Manuals** Access manufacturer information with a touch.
- ◆ **Visualize** Operation of components with cross sections.
- ◆ **Evaluate** Test understanding of SOPs with interactive quizzes.

3dSOP is a revolutionary approach to Training, Testing, and Documentation. Interaction with a 3D representation of a critical process provides the best learning environment, enhanced motivation, and accelerated concept retention. All this while satisfying OSHA's regulatory requirements for SOP training and documentation.
